MY 2025 Visual Flow Diagram - Breast Cancer Screening (BCS-E)

Measure Description: The percentage of members 40-74 years of age who were recommended for routine breast cancer screening and had a mammogram to screen for breast cancer.

INITIAL POPULATION

Start

AND

42–74 years of age as of the last day of the measurement period

AND

Recommended for routine breast cancer screening

Patient
- Gender of female at any time in the person's history.
- **DRC:** Administrative Gender code female

OR

Patient
- Sex parameter for clinical use of female.
- With a date during the measurement period.
- **DRC**: SexParameter ForClinicalUse code female-typical

OR

Observation
- Observation for sex assigned at birth.
- With a result value of female any time in the person's history.
- With an amended, corrected, final status.
- **DRC:** LOINC code 76689-9 with LOINC code LA3-6

AND

Continuously enrolled with Medical benefit

Coverage
- Medical Benefit.

and
- Enrolled October 1 two years prior (27 months) to the measurement period through the end of the measurement period.

and

No more than one gap in enrollment of up to 45 days for each full calendar year.

and
- No gaps in enrollment from October 1 two years prior (27 months) to the measurement period through December 31 two years prior (2 years) to the measurement period.

and
- Enrolled on the last day of the measurement period.

AND

Valid product line

Coverage
- Medicare
- Commercial
- Medicaid
- Exchange

Criteria Met?

No → Not in initial Population

Yes → Meets Initial Population

DENOMINATOR EXCLUSIONS

Continued from page 1

OR

Persons who die during the measurement period

Patient
- Deceased date during the measurement period.

OR

Persons using hospice services or who elect to use hospice benefit during the measurement period

Professional/Institutional Claim or EOB
- Hospice services with date during the measurement period.
- **Value Sets**: Hospice Encounter, Hospice Intervention

or

Coverage
- Elect to use hospice benefit during the measurement period.

or

Encounter
- Encounter for hospice with date during the measurement period.
- With a finished status.
- **Value Set**: Hospice Encounter

or

Procedure
- Hospice intervention/procedure with date during the measurement period.
- With a completed status.
- **Value Set:** Hospice Intervention

OR

Persons with a history of bilateral mastectomy

Professional/Institutional Claim or EOB
- Bilateral mastectomy with date that occurs any time before the end of the measurement period.
- **Value Sets**: Bilateral Mastectomy, Unilateral Mastectomy with CPT modifier code 50

or

Procedure
- Bilateral mastectomy procedure with date any time before the end of the measurement period.
- With a completed status.
- **Value Sets**: Bilateral Mastectomy, Unilateral Mastectomy with CPT modifier code 50, Clinical Unilateral Mastectomy with SNOMED modifier code 51440002

or

Condition
- History of bilateral mastectomy diagnosis with date any time before the end of measurement period.
- **Value Set:** History of Bilateral Mastectomy

OR

Persons with a history of both right and left unilateral mastectomies

- Left Mastectomy with date that occurs anytime before the end of the measurement period.

Professional/Institutional Claim or EOB
- **Value Sets**: Unilateral Mastectomy with CPT modifier code LT, Absence of Left Breast (do not include POS 81), Unilateral Mastectomy Left

or

Procedure
- With a completed status.
- **Value Sets:** Clinical Unilateral Mastectomy with SNOMED modifier code 7771000, Unilateral Mastectomy Left, Unilateral Mastectomy with CPT modifier code LT

or

Condition
- Absence of left breast diagnosis.
- **Value Set:** Absence of Left Breast

AND

- Right mastectomy with date that occurs anytime before the end of the measurement period.

Professional/Institutional Claim or EOB
- **Value Sets:** Unilateral Mastectomy with CPT modifier code RT, Absence of Right Breast (do not include POS 81), Unilateral Mastectomy Right

or

Procedure
- With a completed status.
- **Value Sets:** Clinical Unilateral Mastectomy with SNOMED modifier code 24028007, Unilateral Mastectomy Right, Unilateral Mastectomy with CPT modifier code RT

or

Condition
- Absence of right breast diagnosis.
- **Value Set:** Absence of Right Breast

OR

Persons with a history of a gender-affirming chest surgery and a diagnosis of gender dysphoria

- Breast reduction chest surgery with date that occurs anytime before end of measurement period.

Professional/Institutional Claim or EOB
- **DRC**: CPT code 19318

or

Procedure
- With a completed status.
- **DRC**: CPT code 19318

AND

- Gender dysphoria diagnosis with date that occurs anytime before the end of the measurement period.

Professional/Institutional Claim or EOB
- **Value Set:** Gender Dysphoria

or

Condition
- **Value Set:** Gender Dysphoria

OR

Persons receiving palliative care or had a palliative care encounter during the measurement period

Professional/Institutional Claim or EOB
- Palliative care service with date that occurs during the measurement period.
- **Value Set:** Palliative Care Encounter
- **DRC:** ICD-10-CM Z51.5 (do not include claims with POS code 81)

or

Encounter
- Encounter for palliative care with date during the measurement period *or*
- Encounter diagnosis with date during the measurement period.
- With a finished status.
- **Value Set**: Palliative Care Encounter
- **DRC:** ICD-10-CM Z51.5

or

Condition
- Diagnosis for palliative care with date during the measurement period.
- **DRC**:ICD-10-CM Z51.5

or

Procedure
- Palliative care intervention with date during the measurement period.
- With a completed status.
- **Value Sets:** Palliative Care Encounter, Palliative Care Intervention

or

Observation
- Observation for palliative care with date during the measurement period.
- With an amended, corrected, final status.
- **Value Set**: Palliative Care Assessment

MY 2025 Visual Flow Diagram - Breast Cancer Screening (BCS-E)

Measure Description: The percentage of members 40-74 years of age who were recommended for routine breast cancer screening and had a mammogram to screen for breast cancer.

DENOMINATOR EXCLUSIONS

Continued from page 3

OR

Medicare members 66 years and older enrolled in I-SNP or living long-term in an institution (LTI) during the measurement period.

Coverage

- Age 66 years and older as of last day of measurement period.
- Medicare.
- Enrolled in I-SNP or LTI during the measurement period.

OR

Persons 66 years and older with frailty and advanced illness

Frailty:

- Age 66 years or older as of last day of the measurement period.
- At least two indications of frailty on different dates of service that occur during the measurement period.

Professional/Institutional Claim or EOB

- Do not include laboratory claims/EOB (POS code 81).
- **Value Sets:** Frailty Device, Frailty Diagnosis, Frailty Encounter, Frailty Symptom

or

Observation

- Observations of frailty with an amended, corrected, or final status.
- **Value Sets:** Frailty Symptom

or

Condition

- Diagnosis of frailty.
- **Value Sets:** Frailty Diagnosis, Frailty Symptom

or

Encounter

- Encounter for frailty with a finished status.
- **Value Sets:** Frailty Encounter

AND

Advanced Illness

Advanced Illness:

- Age 66 years or older as of last day of measurement period.
- At least two indications of advanced illness on different dates of service that occur during the measurement period or year prior.

Professional/Institutional Claim or EOB

- Do not include laboratory claims/EOB (POS code 81).
- **Value Sets:** Advanced Illness

or

Condition

- Diagnosis of advanced Illness.
- **Value Sets:** Advanced Illness

OR

Dementia:

- Age 66 years or older as of last day of measurement period.
- At least one dispensed dementia medication that occurs during the measurement period or year prior.

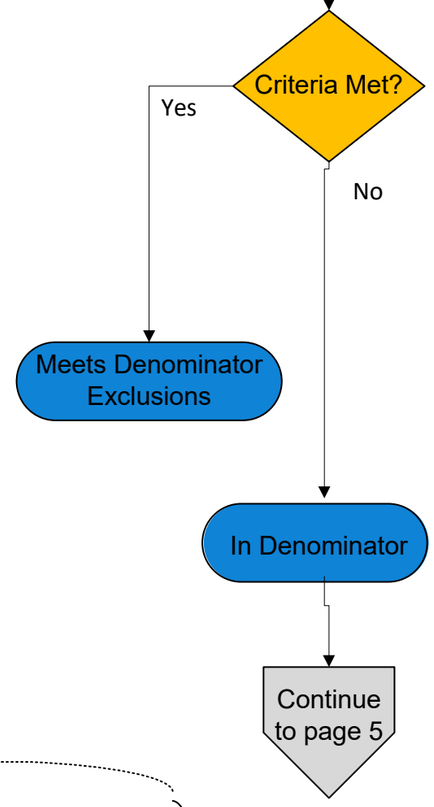

Pharmacy Claim or EOB

- **Medication List:** Dementia Medication

or

Medication Dispense

- With a completed status.
- **Medication List:** Dementia Medication
